

## UPDATE AS OF NOVEMBER 16, 2020

**\*\* Park Sharon Community Families:** Thank you for the incredible interest in joining us for our Basketball programs this coming January! As you might imagine, the registration spots filled up quickly this past weekend due to the limited # of space we could extend to our players. The following updates across each Age group are offered below as well as an outline of our intended COVID procedures. Further details, subject to COVID conditions or other factors out of our control, will be posted to our website over the coming weeks.

**6U:** Registration for this age level is now **closed**. A waitlist is **not** currently being taken. We continue to target a season (clinic-style) starting Sat Jan 9th thru Feb 27th @ Velocity Sports.

**8U:** Registration for this age level is now **closed**. A waitlist is **not** currently being taken. We continue to target a season with practices starting the week of Mon Jan 4th. Evaluations will be conducted at Pineville Church of the Nazarene Sat Dec 12th.

**10U:** Registration for this age level is now **closed**. A waitlist is **not** currently being taken. We continue to target a season with practices starting the week of Mon Jan 4th. Evaluations will be conducted at Pineville Church of the Nazarene Sat Dec 12th.

**12U:** Registration for this age level is now **closed**. A waitlist is **not** currently being taken. We continue to target a season with practices starting the week of Mon Jan 4th. Evaluations will be conducted at Pineville Church of the Nazarene Sat Dec 12th.

**17U:** Player registration for this age level has been taken on a full roster basis over these last several days, consistent with the earlier communication. We are now fully capped for the # of teams we can effectively manage, but continue to assess whether more gym capacity could adequately serve a few more teams. Team coaches will be contacted more directly via email over the coming days to have their players (parents) go thru a registration process on the PSAA site. We continue to target a season with open gym / games starting the week of Mon Jan 4th at St Andrews United Methodist Church.

### COVID UPDATE

**COVID Protocols:** In concert with our host churches and using guidelines offered from the State of NC and the CDC, we have the following framework in mind to offer both our players and other attendees a safe environment. The first & last declaration is that it is up to the individual families to determine if the activity and the environment is appropriate for them as this is the very first point of control.

Once the season starts, PSAA & our partner churches **will** conduct *temperature screenings of the players, coaches, referees and PSAA administration* prior to any PSAA practices, evals or game activities. At this time, we do **NOT** anticipate doing the same for any (limited) spectators who attend, but *strongly encourage 6' social distancing behavior for all*. In addition, temperature screening participants will have their *name recorded to help facilitate a contact tracing* method. Should any signs of illness during PSAA activity or throughout the season become known, the screening list of those who potentially came in contact with the individual(s) will be discretely leveraged to share with others; *self-quarantine steps* should be taken. PSAA players and the extended PSAA community are expected to share, **on their honor**, whether they are feeling symptoms (test positive); names & details will be kept confidential by the PSAA Commissioner.

Routine *sanitary cleaning methods* will be contractually arranged for the facilities after each day/evenings' events and *hand sanitizer and wipes* will be available. Capacity limits for all venues are in place, so attendance will be counted and admission will be controlled once #s are reached. Loitering after sanctioned PSAA activities will not be allowed within the facilities. We advise all individuals to arrive early for their designated activity and be prepared to (wait &) comply with our steps as we work to make the methods simple, comfortable and expeditious for all.
