REMOTE PROGRAM DELIVERY

A Reconnecting Youth & CAST Booster Training

With many schools and agencies across North America cancelling or limiting in-person instruction, those of us who care about the integrity of the learning process are faced with new challenges. In response, we have designed an online approach and user-friendly digital materials for you and your students!

The Remote Program Delivery Booster Training will walk you through the use of our digital resources, adapting instruction and activities to an online format, and useful tools on various platforms for creating a seamless transition to online CAST groups and RY classes. Ice breakers and bonding activities will be suggested to bolster relationship building in an online group environment.

Agenda Topics

- Introductions and Ice Breakers
- The Importance of Social Support
- Digital Resources for RY & CAST
- Online Formats and Web-based Tools
- Group Bonding in the Digital World
- Conclusions
