

## *COVID-19 Safety Procedures and Preparedness Plan*

*The following policies, practices and conditions are set forth to incorporate guidance from the Centers for Disease Control and Prevention (CDC), the North Carolina Department of Health, and the federal Occupational Safety and Health Administration (OSHA) into our daily practices at the NC Volleyball Academy.*

Knowing that eliminating all risk is impossible, NC Volleyball Academy is committed to providing an environment that is as safe and healthy as reasonably possible for all coaches, athletes and families. To that end, we have developed the following Safety Procedures and Preparedness Plan in response to the COVID-19 pandemic. We will continually monitor the COVID-19 pandemic; and as it evolves the below policies and procedures will be modified. Any changes to the policies and procedures will be sent in writing to all coaches and families.

By continuing with NC Volleyball Academy for the tryouts and entire 2020-21 club season, all adults and guardians of minors assume ALL risks associated with participation including but not limited to exposure to COVID-19. Exposure to COVID-19 can lead to temporary or permanent health consequences and death.

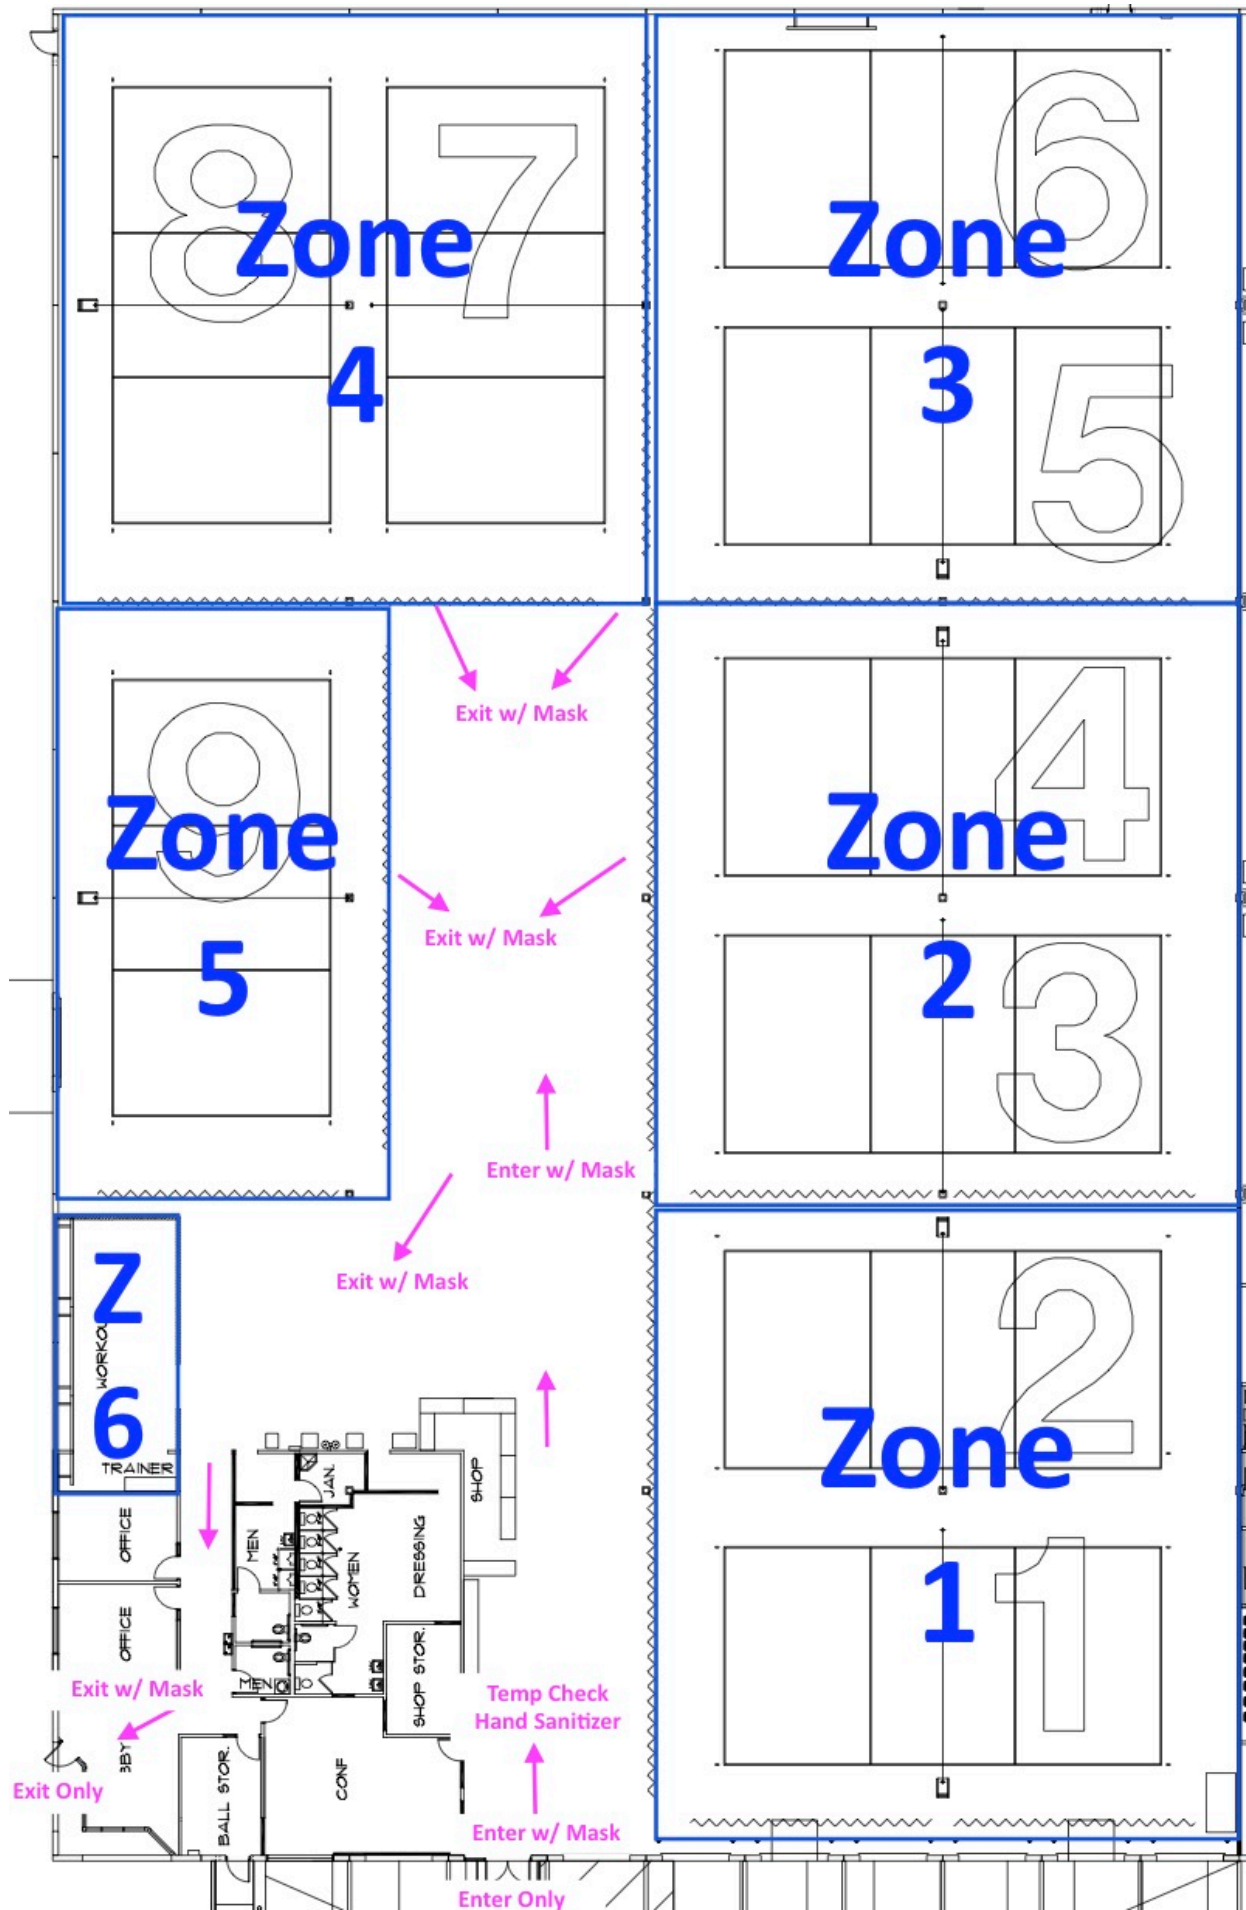

Club Directors, coaches, athletes and families are all responsible for implementing and complying with all aspects of the policies and procedures in this plan. Our goal is to mitigate the potential for transmission of COVID-19 in our facility, and that requires full cooperation. NC Academy's staff is charged with enforcing the policies and this plan during their scheduled training times, with (insert club name)'s directors responsible for further disciplinary actions. **All coaches, athletes and guardians will be required to sign the "Assumption of Risk and Liability Waiver" on the last page of this document as assumption of risk, waiver of liability, understanding of and agreement to comply with all aspects of the below Safety Procedures and Preparedness Plan. Any violations by athletes can result in revocation of facility usage privileges with no refunds given. Any violations by coaches can result in termination.**

Club directors, or an appointed staff member, will be on site at all times to ensure compliance.

## C. Screening and Policies for ANYONE exhibiting Signs and Symptoms of COVID-19 || entering or within NC Volleyball Academy

All coaches, athletes and families are required to self-monitor for signs and symptoms of COVID-19. The following policies and procedures are being implemented to assess health status, of all, prior to entering the facility. This process is not all encompassing and does not guarantee the health of any individual entering NC Volleyball Academy.

- 1) All individuals entering the facility will have their temperature checked at the front entry door and only individuals with a temperature lower than 99.5 degrees will be allowed to enter the facility.
- 2) All individuals entering the facility will be required to be cold/flu/COVID-19 symptom free for three days prior to entrance. If anyone is displaying any symptoms of the above, they must be kept home. If, upon their arrival or during their training time they display any of the above symptoms they will be immediately moved to Zone 6 (quarantine zone) and must be picked up by their parents immediately. Then, the zone of the facility they utilized as well as Zone 6 will be immediately disinfected. The sanitizing process will be implemented by our Staff and will take approximately 15 minutes. Athletes that could have come into contact with the athlete displaying signs of illness will immediately wash their hands and arms and resume training once the zone has been disinfected.
- 3) Should anyone participating with NC Volleyball Academy, coach or athlete, be diagnosed with COVID-19, they should immediately contact NC Academy's Club Directors and follow proper healthcare procedures as laid out by their health care professional, including quarantining. Athletes, coaches, and staff must have, in writing, signed, clearance from their health care professional to resume activity after a COVID-19 diagnosis OR the original, dated, "order" to quarantine with the specified duration from their health care professional so NC Academy can verify their compliance with that "order" upon their return.

## D. Contact Tracing

- 1) Detailed records of individual attendance at NC Volleyball Academy will be kept and provided to health authorities upon request to allow for contact tracing should it be necessary. Upon official request, parent contact information will be provided.
- 2) Information will ONLY be provided to government/health authorities, it will not be shared with coaches, staff, athletes or families. Government/health authorities will contact individuals to relay any additional actions that must be taken. Because NC Volleyball Academy's staff are not licensed medical experts, other than in direct cases of diagnosis, NC Academy's staff will not implement additional mandatory quarantine of secondary or tertiary contacts. However, athletes/families/coaches are required to notify NC Academy's Directors if they are ordered to quarantine by a government or health authority; and that order must be adhered to by the athlete or coach.

## E. Housekeeping

Housekeeping practices are being implemented, including routine cleaning and disinfecting of all surfaces, training equipment, and practice areas, including restrooms and meeting rooms. Frequent cleaning and disinfecting will be conducted in high-touch areas.

Cleaning of all touched surfaces and floors will be implemented by use of Aqueous Ozone. This is an FDA approved product/process that removes 99.9% to 99.9999% of viruses, bacteria and mold. For most viruses, bacteria and mold, the removal ranges from instantaneous to 5 minutes. The product is safe for use on ALL surfaces including skin and clothes. The product is even safe when sprayed on food and then consumed.

## F. Communication and Training

This COVID-19 Safety Procedures and Preparedness Plan was communicated to all coaches and necessary training was provided. Additional communication and training will be ongoing, and updates provided to all coaches, and where necessary relayed to all athletes and families.
